Gettysburg Compiler.

FRIDAY, OCT. 14, 1870.

THE township elections throughout the county are largely in favor of the Democrats.

A large majority of the Election Judges chosen in this county on Tuesday are Democrats.

This Democratic elect the Judge, Assessor and School Director in Highland township.

In Littlestown, we are told, the Democrats elect nearly all the township officers.

Don't the Radical leaders now see that all Republicans won't endorse negro suffrage?

The Radical leaders here, and invite the people to do likewise. The people decide, difference in taste.

This Democratic agent Huntington township for the county ticket, and it will, elect their township candidates.

A negro school last Tuesday that "white" could keep him from voting with his color. The mixing of "white" and "black" is considered, the word (color) is very significant.

The Radical leaders resorted to the game of "making figures." The people were not in the humor to be cheated, and gave their statements the weight they deserved.

To these Republicans who would no longer be blinded on the negro question, and had the independence to vote with the white man's party last Tuesday, all honor is due. Such numbers will always be respected.

MASS MEETING AT WESTMINSTER.—A Democratic Mass Meeting will be held at Westminster, Md., on Saturday, the 23d of October instant, at 10 o'clock, A. M. Hon. John H. Johnson, the Democratic candidate for Congress, and others, will address it.

Thoroughness among Republicans to work for large expenditures for their newspapers, thus insuring their being read by their organs. Democrats, take the hint and do likewise. Do it all the time, as is the custom of the opposition.

With the aid of negro votes, the Radicals carry Cumberland township. The Democratic candidate for Assembly, Isaac Hester, has, however, a handsome majority, and the Democratic candidate for Supervisor and School Director.

The immense gain made by the Democratic candidate for the Legislature in this township is a more than enough to compensate for the loss of the county seat. The Radicals begin to think that the Radicals have been humiliated in this long enough.

FIFTY-ONE negroes voted in this township—all for the leading candidates, of course. The Radical ticket last year was 111 on Tuesday (a gain of only 19, notwithstanding the 50 negroes. Well done, white men of the borough!

MANY Republicans now admit that negro suffrage is a blunder—that it will lose as much, if not more, than it will gain for their party. Why did they not cut out from their leaders in 1868, and by thus bringing them to their senses, put a stop to this disgusting negro business.

EVERY Democratic citizen of Adams has been asked to be present at his gathering. The Radicals have been exhausted every attempt—resorted to every trick—to make things up, but they cannot make things up, but instead, they and their negro allies have come to the wall. Let them be kept there for all time.

This contest of Tuesday decides one point very emphatically—that the people of Adams county do not want to have a Radical party with negroes. Will the Radicals leaders here and there? They have already lost a white man for a negro gained. Will they go on in their futile career until they lose five for one? The Democracy can stand it, if they can.

The negroes of this borough were evidently advised, by their Radical instructors, to "vote early." If not "at once." Long before the polls opened they began to form a "dark cloud" of voters of these voters, and the leaders present and distributing tickets and marching the "new element" to the ballot box. The opposition used to set on a claim to "all the decency and all the intelligence." Did they, though they were entitled to such credit for their efforts?

ADAMS is as proudly erect as ever. The Radical leaders, with the aid of an organization as secret and as effective as they could make it, counted on the fact that they could carry a portion of their "steal a march" on the Democracy, but when the day of trial came they found out that the white sentiment had aroused our people, and that the polls in solid columns—men to the left of the two lines, Radicals and Negroes, and the rebuke of the Radical leaders for the deceptions and tricks attempted by them during the campaign. "Honesty is the best policy."

Now that the election is over, the COMPLEX will again bear to its usurers readers a full and pleasing variety of reading matter. Farm and household affairs will receive careful attention; local and general news shall have all due space, as well as the "news of the day" while the politician will find no reason to keep himself posted on the latest news of the two parties. Nothing will be neglected to make the COMPILER entertaining and useful, and fully worth the money paid for it. During the long winter months it will be found a desirable and welcome companion in many a lonely chamber. Those who are not now subscribers, should lose no time in becoming such. We never in sufficient funds, the type will be constantly improved. Friends, give us a lift by extending your circulation.
